5. MINOR, MDC, VAC, SEC, VOC COURSES

- a. **Minor Discipline/Course (MIC)** helps a student to gain a broader understanding beyond the major discipline. For example, if a student pursuing an Economics major obtains a minimum of 12 credits or as specified in ordinance, from a bunch of courses in Statistics, then the student will be awarded B.A. degree in Economics with a Minor in Statistics.
- b. **Multidisciplinary Course (MDC)** is an option to explore disciplines of interest beyond the choices of learners made in their major and minor disciplines. These courses are based on introductory knowledge in a subject other than the discipline of Major and Minor subjects to gain knowledge across the discipline.
- c. **Ability Enhancement (AE) Courses** are based upon the content that leads to ability/Knowledge enhancement i.e. Regional/Modern/traditional languages. These courses are mandatory for all disciplines particularly at undergraduate level.
- d. **Skill Enhancement Courses (SEC)** may be chosen from a pool of courses designed to provide value-based and/or skill-based knowledge and should contain both theory and lab/hands-on/training/field work.
- e. **A vocational course (VOC)** is focused on practical work, preparing students for a particular skilled profession. Such courses develop capacities for sustenance, work, and economic participation and develop values and sensibilities toward physical work and dignity of labour.
