B.Sc. (Hons.) Clinical Psychology
Section A (Biological Basis of Behaviour)

1. What is the basic structural and functional unit of the nervous system ?
(A) Axon (B) Neuron
(C) Synapse (D) Dendrite
2. The largest part of the human brain is :
(A) Cerebellum (B) Brain stem
(C) Cerebrum (D) Hypothalamus
3. The brain and spinal cord make up the :
(A) Peripheral nervous system (B) Autonomic nervous system
(C) Central nervous system (D) Somatic nervous system
4. Which hormone is commonly called the 'stress hormone' ?
(A) Dopamine (B) Cortisol
(C) Estrogen (D) Oxytocin
5. The right hemisphere of the brain generally controls :
(A) Right side of the body (B) Only vision
(C) Both sides equally (D) Left side of the body
6. Which gland is known as the 'master gland' ?
(A) Pituitary (B) Thyroid
(C) Adrenal (D) Pancreas
7. The Executive functions such as reasoning, problem-solving and decision-making are controlled mainly by the :
(A) Occipital lobe (B) Temporal lobe
(C) Cerebellum (D) Frontal lobe
8. What part of the neuron receives signals from other neurons ?
(A) Axon (B) Soma
(C) Dendrites (D) Synapse
9. Which of the following techniques is primarily used to measure the electrical activity of the brain ?
(A) MRI (Magnetic Resonance Imaging)
(B) CT Scan (Computed Tomography)
(C) EEG (Electroencephalogram)
(D) X-ray
10. Which of the following is an invasive method ?
(A) CT Scan (B) fMRI
(C) EEG (D) Brain lesion study

Section B

(English Comprehension)

Read the passage and answer Questions (Q. Nos. 11–17)

Social media has become an important part of modern life. Platforms such as Facebook, Instagram, WhatsApp, and X (formerly Twitter) help people communicate instantly with friends, family, and colleagues. Students use social media to share information, learn new skills, and participate in educational discussions. Businesses use it to promote products and interact with customers. Governments and organizations also use social media to spread awareness about health, education, and public safety.

One of the greatest advantages of social media is that it connects people across the world. It allows users to exchange ideas, learn about different cultures, and stay updated on current events. During emergencies, social media can help people receive important information quickly. It also provides opportunities for creativity through photos, videos, blogs, and other forms of content.

However, social media also has some negative effects when used irresponsibly. Many people spend excessive time online, which can reduce productivity and affect physical and mental health. Some users become addicted to checking notifications and scrolling through content. This may lead to stress, anxiety, and lack of concentration.

Another major problem is the spread of false information. Rumours and fake news can travel rapidly on social media and create confusion among people. Cyberbullying is also a serious concern, especially among young users. Hurtful comments, online harassment, and misuse of personal information can have harmful effects on individuals.

Privacy is another important issue. Users often share personal details without realizing the risks involved. If privacy settings are not managed properly, sensitive information may be accessed by unauthorized people.

Therefore, social media should be used wisely and responsibly. Users should verify information before sharing it, respect others online, protect their privacy, and maintain a balance between online and offline activities. When used properly, social media can be a powerful tool for communication, learning, and growth.

Questions :

11. What is the main purpose of the passage ?
(A) To promote businesses
(B) To explain the uses and misuse of social media
(C) To advertise social media platforms
(D) To discuss television
12. Which of the following is an advantage of social media ?
(A) Spreading fake news
(B) Cyberbullying
(C) Global communication
(D) Loss of privacy
13. Students use social media mainly to :
(A) Waste time
(B) Learn and share information
(C) Avoid studies
(D) Play games only
14. Excessive use of social media may lead to :
(A) Better concentration
(B) Improved health
(C) Stress and anxiety
(D) Increased physical activity
15. The word 'rapidly' in the passage means :
(A) Slowly
(B) Quickly
(C) Quietly
(D) Clearly
16. Which problem is related to false information on social media ?
(A) Creativity
(B) Learning
(C) Fake news
(D) Communication
17. What does the word 'advantage' mean ?
(A) Benefit
(B) Problem
(C) Danger
(D) Mistake
18. I could not stand in that room as there was a.....smell.
(A) fowl
(B) foil
(C) foul
(D) fuel
19. Choose the antonym of 'Optimistic' :
(A) Hopeful
(B) Positive
(C) Pessimistic
(D) Cheerful
20. Which sentence is written in the passive voice ?
(A) The student was helped by the counselor
(B) The student asked a question
(C) The counselor helped the student
(D) The counselor is helping the student

Section C
(Aptitude and Reasoning)

21. A research committee of 4 people must be chosen from 6 physicists and 4 chemists. If the committee must contain a strict majority of physicists, how many unique committees can be formed ?
(A) 60 (B) 75
(C) 95 (D) 115
22. The least number by which 72 must be multiplied in order to produce a multiple of 112, is :
(A) 18 (B) 12
(C) 6 (D) 14
23. A town's population increases by 10% annually. If the current population is 25,000, what will the population be after 2 years ?
(A) 30,000 (B) 30,250
(C) 31,000 (D) 31,500
24. In an examination, a candidate needs 40% of the total marks to pass. If a candidate gets 180 marks and fails by 20 marks, what are the total maximum marks ?
(A) 400 (B) 450
(C) 500 (D) 600
25. The ratio of the income of A and B is 7 : 8, and the ratio of the income of B and C is 8 : 11, If the difference in the income earned by A and C is Rs. 800, then find the sum of income earned by all three of them :
(A) Rs. 5,200 (B) Rs. 4,800
(C) Rs. 4,000 (D) Rs. 3,600
26. Seats for Mathematics, Physics and Biology in a school are in the ratio 5 : 7 : 8. There is a proposal to increase these seats by 40%, 50% and 75% respectively. What will be the ratio after increased seats ?
(A) 2 : 3 : 4 (B) 6 : 7 : 8
(C) 6 : 8 : 9 (D) None of these

27. 11 : b : 44 are in continued proportion. Find b.
(A) 4 (B) 22
(C) 44 (D) 11
28. The average age of 9 members of a family is 68. If a couple with average age 45 left the house and another couple is blessed with twins, what will be the average age of the family 5 years later ?
(A) 53 (B) 57
(C) 60 (D) 63
29. The average run scored by Rohan in first 11 matches is 97. If he scored x runs in his 12th match the average decreased by 3. Find the value of x .
(A) 57 (B) 59
(C) 61 (D) 63
30. The ages of X and Y are in the ratio 4 :7. Five years ago, the ratio of their ages was 1 : 2. What is the current age of Y ?
(A) 35 years (B) 28 years
(C) 20 years (D) 42 years
31. Solve the algebraic equation for y : $3(2y - 5) - 4y = 2(y + 1) - 7$:
(A) $y = 0$
(B) Any real number (Infinite solutions)
(C) No solution
(D) $y = 5$
32. A solid metal cube of side 6 cm is melted and recast into a rectangular block (cuboid) with a base measuring 9 cm by 4 cm. What is the height of this cuboid ?
(A) 4 cm (B) 6 cm
(C) 9 cm (D) 8 cm
33. Find the missing sequence number :
2, 3, 7, 16, 32, ?
(A) 64 (B) 48
(C) 57 (D) 52

34. A family pie chart assigns 40% of its region to Rent. What is the measure of the central angle representing Rent on the chart ?
(A) 160 degrees (B) 120 degrees
(C) 40 degrees (D) 144 degrees
35. In a distribution histogram, the interval widths are constant at 10 units. If the total area of all bars combined is 400, what must be the sum of all the individual bar frequencies ?
(A) 40 (B) 100
(C) 400 (D) 4
36. Complete the logic pair analogy :
Ocean : Water :: Glacier : ?
(A) Ice (B) River
(C) Cold (D) Mountain
37. In a certain code, 'ORANGE' is written as 'PUBOHF'. How is the word 'JUICE' written in that exact same code framework ?
(A) ITRES (B) LVKDF
(C) KVKDF (D) KVJDF
38. If 25% of a number is subtracted from the number itself, the result is 120. What is the original number ?
(A) 150 (B) 160
(C) 140 (D) 180
39. If the length of a rectangular plot is increased by 20% and its width is decreased by 10%, what is the percentage change in its area ?
(A) 10% increase (B) 12% increase
(C) 8% increase (D) 2% decrease
40. The average score of a batsman in 10 innings is 45 runs. How many runs must he score in his 11th inning to raise his overall average score to 50 runs ?
(A) 95 runs (B) 105 runs
(C) 100 runs (D) 50 runs

Section D
(General Knowledge and Current Affairs)

41. Regarding international diplomacy, which organization recently welcomed the African Union as a permanent member during its 2023 summit held in New Delhi ?
- (A) The European Union (B) BRICS
(C) SCO (D) G20
42. In the context of recent space exploration, what was the primary scientific objective of the Pragyan rover deployed during India's Chandrayaan-3 mission ?
- (A) To return lunar soil samples to Earth
(B) To analyze the chemical composition of the lunar surface near the South Pole
(C) To map the far side of the moon
(D) To establish a permanent lunar base
43. Which of the following describes the 'Albedo Effect' in the context of Environmental Literacy and climate change ?
- (A) The absorption of CO₂ by the world's oceans
(B) The fraction of solar energy reflected back into space by a surface
(C) The movement of tectonic plates affecting ocean currents
(D) The increase in global temperature due to methane emissions
44. Which of the following is the main objective of the 'Montreal Protocol' ?
- (A) To phase out the production and consumption of ozone-depleting substances
(B) To reduce carbon dioxide emissions to combat global warming
(C) To regulate the transboundary movement of hazardous wastes
(D) To protect biodiversity in wetland ecosystems
45. Who was the first Indian woman to win an Olympic medal ?
- (A) P.T. Usha (B) Karnam Malleswari
(C) Saina Nehwal (D) Mary Kom

46. Which Indian athlete won a gold medal in the Men's Javelin Throw at the 2023 World Athletics Championships ?
- (A) Shivpal Singh
 - (B) Kishore Jena
 - (C) Neeraj Chopra
 - (D) Arshad Nadeem
47. What is the name of India's first solar mission launched by ISRO in September 2023 ?
- (A) Mangalyaan-2
 - (B) Chandrayaan-3
 - (C) Aditya-L1
 - (D) Gaganyaan
48. In the context of Indian legislation, what does 'BNS' stand for, which replaced the Indian Penal Code (IPC) in 2024 ?
- (A) Bharatiya Nyaya Sabha
 - (B) Bharatiya Niti Sanstha
 - (C) Bharatiya Nagarik Suraksha
 - (D) Bharatiya Nyaya Sanhita
49. Who was awarded the Bharat Ratna, India's highest civilian honor, posthumously in 2024 for his work in social justice ?
- (A) P. V. Narasimha Rao
 - (B) M. S. Swaminathan
 - (C) L. K. Advani
 - (D) Karpoori Thakur
50. What is 'e-Waste' primarily composed of ?
- (A) Organic kitchen waste
 - (B) Discarded electronic devices
 - (C) Construction debris
 - (D) Industrial chemical runoff
