Hon'ble Governor Chancellor's Message...

I am delighted to know that Gurugram University, Gurugram, is releasing their new information brochure, detailing academic pursuits, courses, goals, and vision. Sharing relevant information in a compact manner is of paramount importance to stay connected not only with the students on the campus but also those who aspire to be a part of the university.

Though online communication through campus communications platforms is fast becoming a norm, the booklet of information has its own significance in ensuring that each student, faculty member and other stakeholders has a means to sustain their campus ties and feel interconnected to the college community at large.

The new National Education Policy-2020 reflects the shift in vision regarding education from the creation of a resource pool to a path of holistic development of the person. I am delighted to know that as part of the new National Education Policy-2020, Gurugram University, rolled out 15 employment-oriented programs in the academic session 2022-23.

I am glad to learn that Gurugram University is constantly striving to play an important role in the creation of a global educational environment on the campus. It is introducing innovative and employable courses ranging from science and technology to management and communication. The university is also launching a foreign language program in Gurugram, which is an international level corporate centre. It is also important that in addition to studies, the university should promote sports, cultural, and literary activities continuously for the overall development of students. I appreciate the initiative of green campus.

According to the UGC, one way that students can contribute to the G20 theme 1s by taking part in conferences on various subjects. It recommends that students serve as 'facilitators' for foreign delegations, rapporteur on sessions, assist with translation, plan cultural displays, and so on. It also advocates Institutions to promote Model G20 forums, G20 branding at festivals, and student participation in poetry, quiz, and logo competitions. In line with these initiatives Gurugram University has sprung itself to support the G20 presidency themes. Good luck to Gurugram University!

Hon'ble Vice-Chancellor's Message...

Gurugram, the largest metropolitan city of Haryana, derives its name from Guru Dronacharya-the guru of Kauravas and Pandavas. It is believed that this land was presented to him by his royal disciples as an appreciation and recognition of his warfare training. Today, Gurugram is the most modern and happening city and has emerged as a financial and technical hub of the national capital region. Gurugram University, situated in the heart of Gurugram, is nurturing and strengthening this legacy of tradition and modernity. This youngest state university of Haryana is fast emerging as an institution of higher education with a potential of excellence in diverse areas specially in contemporary and cutting-edge areas such as Artificial Intelligence, Cyber Security, Public Policy, Paramedics, Hospitality and so on.

The University, in the last one year, has entered into MoUs for academic collaboration with several Indian and foreign universities and higher educational institutions to facilitate global exposure to our students. The adoption of NEP in all our undergraduate and postgraduate programs from this academic session will provide a holistic interdisciplinary learning spectrum to the students to promote out of box thinking. Further, Sports and Co- curricular activities are an integral part of the university culture.

Gurugram is a corporate hub and several big multinational companies from all over the world operate from this city. The University has built up a strong industry connect over time. This offers an excellent opportunity of training and placement to our students.

The aim of our University is to produce world class knowledge creators and problem solvers who become collaborative leaders and responsible citizens with a deep national, social, cultural and ecological sensitivity. I am confident that we shall be successful in doing so in near future with the collective efforts of all stakeholders

LOGO AND MOTTO

The Emblem of the Gurugram University is a symbolic expression of the confluence of both ancient methodologies and technological advancements.

The “deeya” (radiant lamp) at the top depicts human energy. As the light of deeya provides us joy and hope; similarly we at Gurugram University will be enlightening the life of students with the truth, knowledge, hope and success. It also symbolises “अप्य दीपो भवः” the last words of Lord Buddha stating that be and discover your own light.

The Rising Sun at the bottom symbolizes knowledge and enlightenment and cleaves the darkness through the light of knowledge. “तमसो मा ज्योतिर्गमय” O' Lord! Take me from darkness to light.

The two twigs of leaves in Hindu Philosophy depicts Vanaspathi (also called as Aushadi) held in the hands of Lord Dhanvanthri, which are the sources of all medicines. In Western Philosophy it symbolize Olive branches which is an expression of Peace, Love and Harmony.

Book at the centre of Emblem clearly depicts its significant role in our life. As it is said “When you open a book, you open a new world”. As books have become inevitable to mankind. Man is mortal but books are immortal.

Globe represents global collaboration; global leadership which is one of the core value of Gurugram University. The university will be active on the International front and will be vigorously forging and consolidating connections with other foreign Universities in a bid to bring international exposure to its faculty and students. It also represents the spirit of “वसुधैव कुटुम्बकम्” The whole world is like a family. It also reflect the spirit of global city that is Gurugram

Human Brain portrays Brainstorming which is a group creativity technique by which efforts are made to find a conclusion for a specific problem by gathering a list of ideas spontaneously contributed by its members. The University pledge to join hand in hand to work together with the approach of generating new ideas around a specific interest. It also signifies the school of

health, paramedical sciences and brain research.

Scientifically, major part of our brain is in unconscious and subconscious state. It is only very small part which is conscious. Everything lies within us. The only question is how to bring it out? It is believed that a genius like Einstein could also use 1/10th of his brain. Most of the discoveries have come from subconscious mind. Actually it is a journey from subconscious to conscious and super conscious mind. The brain in the emblem will truly symbolise journey from subconscious to super conscious; the true journey of life i.e. “मृत्योर्मा अमृतं गमय” O'Lord take me from death to salvation.

The Bodhi tree is symbolic of both Sansara (world) and Dharma. Buddha got enlightened under the Bodhi tree. He then stood up and watched the tree from a distance for seven days. He took sixteen steps towards the tree and under each step, blossomed a Lotus flower. Lotus flower symbolizes clarity, dispassion, love, beauty and purity. As the lotus blooms and flourishes amongst impurities and does not look back; same is our motto as we believe in representing something new and pure above all odds. “ॐ असतो मा सद्गमय” O' Lord take me from untruth to truth.

The name of city “Gurugram” carries forward to the University which itself is after the name of Guru Dronacharya who is clearly visible in our emblem. In the epic Mahabharata, Guru Dronacharya was the royal preceptor to the Kauravas and Pandavas. So, the aim of the Gurugram University is to make the student go through the journey from “studentship to epitome of discipleship”. (छात्रत्व से शिष्यत्व तक)

Robot and Wi-fi clearly depict the technological advancement which has turned dreams into reality, and what was once thought of as pure science fiction, is slowly becoming accessible. Robots can also be effective in areas where there are skill shortages. Updated and Modern technologies are the sign of growth and advancement in our lives resulting in bright future. The aim of the Gurugram University is to promote technological advancement by starting new professional courses on robotic science and artificial intelligence.

The picture at the bottom of emblem shows “Team effort-Together we can win”. The University believes that organisations are much more likely to perform well when their people work effectively and efficiently as a team. This is because good teamwork creates synergy—where the combined effect of the team is greater than

the sum of individual efforts. Working together a team can apply individual perspectives, experience, and skills to solve complex problems, creating new solutions and ideas that may be beyond the scope of any one individual. As well as enhancing organisations' performance good teamwork benefits individuals too. It enables mutual support and learning, and can generate a sense of belonging and commitment.

The bow and arrow in the emblem represent ancient era. Deities and heroes in several mythologies are described as archers, including the Indian Lord Rama and Lakshmana, the Greek Artemis and Apollo, the Roman Diana and Cupid, The famous archery competition of hitting the eye of a rotating fish while watching its reflection in the water bowl was one of the many archery skills depicted in the Mahabharata. It also signifies the type of education imparted by Guru Dronacharya to his disciples and is also the trademark of two great warriors Arjuna and Eklavya.

“विद्या जीवनाय न तु जीविकाय” reflects the vision of the Gurugram University to become a socially conscious centre of knowledge and advancement equipped to take up the challenges of the global change as well as committed to empower both its students and teachers to contribute substantially to physical, mental, economic, social and spiritual development. In nutshell “The Holistic Development”.

“To be successful in life what is need is education, not literacy and degrees.”

In the present scenario We wish to say that this term should be considered as Expansion of Authority. In this age of communication, knowledge of languages and media is most important. Through teaching and training, we are committed to prepare our future communication leaders who will be fully skilled, trained to take this responsibility. The Faculty has following departments :

DEPARTMENT OF MEDIA STUDIES- PROF. RAKESH KUMAR YOGI

“Knowledge and Participation is a core strength”

Communication in contemporary India has changed the way people perceive and exchange information. Such changes in communication scenarios give scope and space to turn the academic field of mass communication into a primary necessity, since it is significant in nation building. The Department of Media Studies aims to strengthen it by making young and responsible media professionals of the future. The Department focuses on providing a practical understanding of mass communication and the media industry with a strong academic base. Our well-equipped animation and media lab "Srijan" provides an opportunity for the students to work on their skills in animation and film-making. The department has lab-cum-theatre room and television studio where students learn technological aspects of audio-visual production. We frequently invite prominent media persons, film makers, corporate communicators to interact with our students to give them a practical exposure to the media industry.

DEPT. OF INDIAN AND FOREIGN LANGUAGES- PROF. RAKESH KUMAR YOGI

Different language programmes initiated in 2018 with the establishment of the University. Post graduate programmes of Hindi and English were offered and due to the keen response of students, two foreign languages German and Japanese were also introduced in 2022. The department of Indian and Foreign languages at Gurugram University is committed to promote critical thinking, human values, globalisation, cultural diversity and linguistic competence, through its various programmes in the domain of literature and language. It nurtures an international, multi-lingual, and interdisciplinary approach toward academics. The faculty members of the department come from diverse, and vibrant academic backgrounds, making the department versatile in its approach, and function. Special lectures, workshops, and seminars are organized by the department to ensure updating in the domain for students, research scholars, and faculty members. Keeping in view the rapid speed of globalization in the present scenario, communication has brought the world ever closer. The Department of English organizes conferences, seminars, guest lectures and workshops. We believe that since English is the global language of communication, and has become a major requirement in the job market, all students should improve their oral and written communication skills in English in order to be able to compete in the highly competitive job market. To accomplish this, our department aims to instill the concept of life-long learning into the students. All the four pillars of language-learning, speaking, listening, reading and writing are integrated in the course delivery to ensure a balanced development of language skills. Of course, a university education is about more than what happens in the classroom. We encourage our students to pursue research opportunities, to perform and publish their creative work, and to seek internship to build on what they are learning and to prepare for their future careers.

The Department of Indian and Foreign Languages has designed courses in German and Japanese for various programmes such as B.Tech, MBA, and MA to meet global needs and turn these foreign languages into an asset for those who intend to join multinational companies and look for opportunities abroad. The Department is to provide modular language skills and training to students enrolled in different programmes. The department is committed to developing professional standards of communication in students across various disciplines.

Two levels of courses (Certificate & Diploma) are in both foreign languages with a capacity of twenty seats in each course. Certificate class focuses on pronunciation, reading, writing & comprehension and basic translation. Diploma course motivates the learners towards the awareness in the respective foreign language & its respective culture. Through songs and films the teaching-learning process is made more effective. The goal of the department is to realize the target of producing students for their further absorption as teachers in schools or language institutes or in other corporate fields related to German and Japanese Industries. Besides language acquisition this program aims to develop the inclination of the students to pursue the area of comparative literary studies. It is also expected that some of the Diploma holders to turn out to be well versed translators and shall further assist their valuable contribution to the sectors of journalism, interpretation and tour.

RESEARCH & INNOVATION

The principal aim of the Gurugram University Research Programme has been to maintain a strong focus on the flow of theoretical ideas and to connect it with the empirical works of subject-oriented research in Public Administration, Psychology, Pharmaceutical Science, Law, Management, Commerce, Media Studies and other disciplines offered by the University as areas of probe and investigation from time to time. We commonly agree that the objective of the subject/discipline-oriented research is to delineate a methodology of investigation that guarantees the discovery of 'truth' and to prescribe that methodology as canonical imperatives that practising researchers must follow. Our research programme has indeed had great practical import; studying research philosophy and training in research methods has become essential ingredients for our research programme.

Note : The notification for Ph.D admissions will be announced separately.
